## **JERSEY SPORTS NEWS 2010 “JERSEY AWARDS”**

Over the past 16 years Jersey Sports News has grown and matured into a publication to respect. That is why this year’s 2010 “Jersey Awards” Tenth Annual Awards presentation is so very important to us at JSN. Just like the growth of JSN has made a difference in High School coverage in Monmouth and Ocean County. The growth of our student-athletes is just as important to us. This has been the true message JSN has been getting out for over 16 years. We felt that our local athletes were not receiving the respect, support or coverage from the bigger papers in our area.

In 1994, we started JSN as a hobby not a business to support these athletes. Then something really surprising happen when two years later in 1997 the Asbury Park Press wanted to buy us out. When we declined, two months later they started their own high school section called the "Rally." My family and I are very proud to have contributed such a huge push for local school coverage. In a humble way, we laugh when a new parent says "You’re like the Rally section." With all due respect, The Rally section is not like Jersey Sports News. You see, we're an original.

The " Jersey Awards" have been one of the most exciting projects that JSN puts out every year. The Jersey Awards are a labor of love. We never would have completed such a huge event without the loyal support and care of our sponsors. Our sponsors' businesses unselfishly have been the backbone of this awards night.

We have discovered that if you put your heart and soul on the line for your dream, that dream will become reality. Our dream at JSN was to produce a positive sports paper for the student-athletes on the Jersey shore. We wanted to recognize and showcase students as a vehicle to promote themselves for college scholarships. Sixteen years later, we are extremely proud to say that JSN has supported over 154,400 student athletes on their quest.

On a personal note, all of my advertisers and loyal readers have surpassed my greatest expectations with their support. To me, they have always been partners with JSN. It thrills me inside knowing that our paper and this Awards night have touched so many hearts. If you don't believe me, just take a look at the young men and woman when they receive the “Jersey Award”.

Thank you and God Bless,  
Michael Attardi, Sr
